

IN THE SPECIFICATION

Please replace the paragraph beginning at page 5, line 24, with the following rewritten paragraph:

The mount 4A in the vehicle body 4 is formed of electrically insulating plastic. In the mount 4A are formed (*e.g.*, inserted) three nuts 1A-3A constituting the mates to three bolts [[1B-3A]] 1B-3B of the bolt-nut pairs 1-3 and wiring for connecting the nuts 1A-3A to a signal converter circuit 6. The signal converter circuit 6 may be fitted in the mount 4A or installed in other locations of the vehicle body 4.
